Secure Connection Failed

demo.medvoxel.com uses an invalid security certificate.

The certificate is not trusted because it is self signed.
The certificate is only valid for medvoxel.com

(Error code: sec_error_ca_cert_invalid)

- This could be a problem with the server's configuration, or it could be someone trying to impersonate the server.
- If you have connected to this server successfully in the past, the error may be temporary, and you can try again later.

[Or you can add an exception...](#)

Click on “Or you can add an exception...”.

The certificate is not trusted because it is self signed.
The certificate is only valid for medvoxel.com

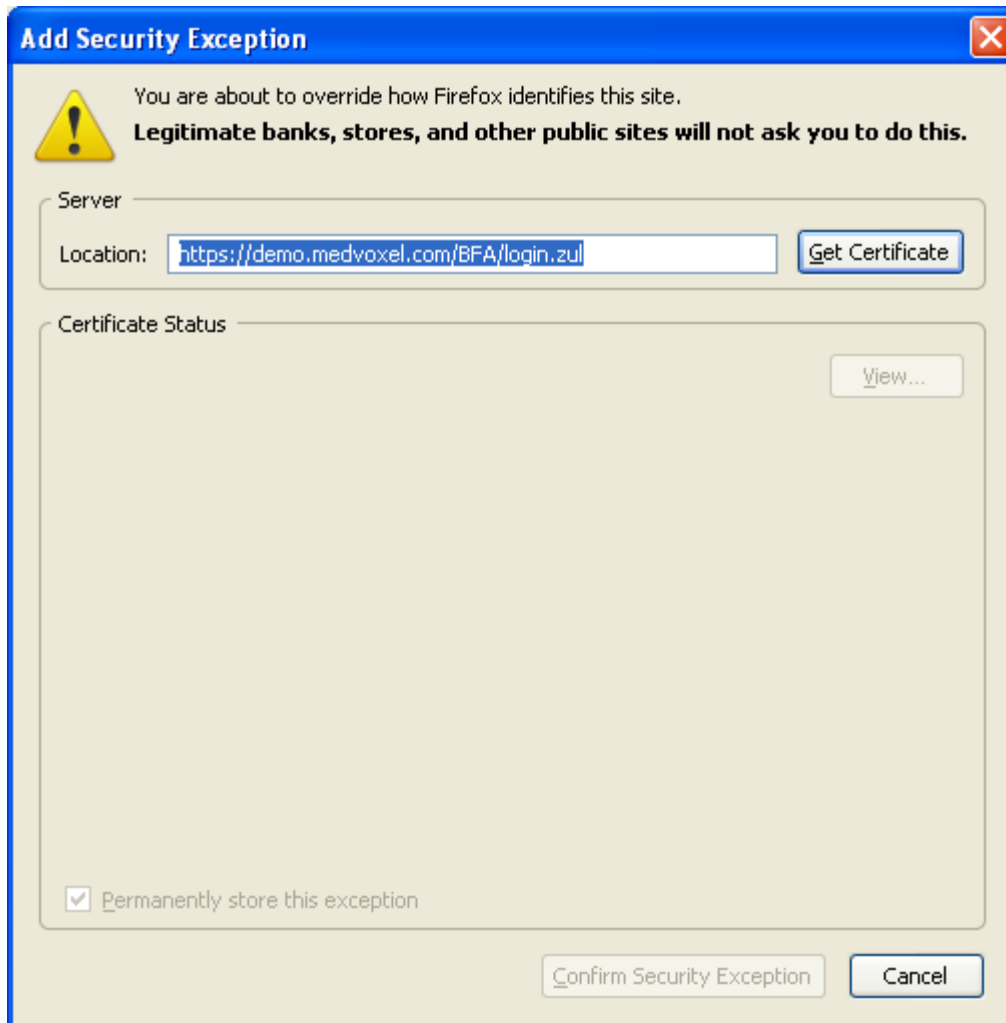

(Error code: sec_error_ca_cert_invalid)

- This could be a problem with the server's configuration, or it could be someone trying to impersonate the server.
- If you have connected to this server successfully in the past, the error may be temporary, and you can try again later.

You should not add an exception if you are using an internet connection that you do not trust completely or if you are not used to seeing a warning for this server.

[Get me out of here!](#) [Add Exception...](#)

Click on “Add Exception...”.

Click on “Get Certificate”.

Click on “Confirm Security Exception”.
